PROFILE

GRAPHICS DESIGN

Creative graphic designer with a strong passion for crafting visually compelling and meaningful designs that capture attention and communicate ideas effectively. Skilled in blending creativity with strategy, I create engaging visuals that enhance brand identity and leave a lasting impression. I enjoy exploring color, typography, and layout to produce designs that are not only aesthetically pleasing but also purposeful and impactful. .

WEBSITE DEVELOPMENT

Creative frontend developer with a passion for building visually engaging and responsive websites that deliver seamless user experiences. I specialize in transforming design concepts into interactive digital interfaces, combining clean code with modern design principles. With a strong eye for detail, I focus on performance, accessibility, and usability to create websites that are not only functional but also intuitive and visually appealing.

EDUCATION

Ebonyi State University, Abakaliki (Inview)
Bachelor of Science (B.Sc.) in Applied Microbiology

Yumac High School, Agbani (2015-2021)
WAEC Certificate

Wesley Nursery and Primary School, Agbani (2009-2015)
First School Leaving Certificate

EXPERIENCE

GRAPHICS DESIGN

- ✓ Designed creative visuals for digital and print media, including social media posts, flyers, posters, and banners.
- ✓ Developed and maintained brand identities for clients, ensuring consistency across all design materials.
- ✓ Collaborated with clients to understand project goals and deliver designs that effectively communicate their message.
- ✓ Created engaging marketing and promotional materials that increased audience reach and engagement.
- ✓ Utilized design tools such as Adobe Photoshop, Illustrator, and Canva to produce high-quality work.
- ✓ Incorporated feedback to refine designs and achieve client satisfaction.

WEBSITE DEVELOPMENT

- ✓ Developed responsive and user-friendly websites using HTML, CSS, and JavaScript.
- ✓ Ensured cross-browser compatibility and optimized websites for performance and speed.
- ✓ Implemented mobile-first design principles to enhance usability across devices.
- ✓ Collaborated with designers and backend developers to deliver seamless digital experiences.
- ✓ Maintained and updated existing websites, improving functionality and user experience.
- ✓ Used frameworks and libraries such as React or Bootstrap to build modern web interfaces.
- ✓ Debugged and resolved technical issues to ensure smooth website performance.
